Welcome

Welcome to Families First! Whether you came here originally for medical care, a parenting class, or for any other service, we hope you’ll learn about *all* the services we offer, take advantage of any that meet your needs, and tell others.

At Families First, you have access to an entire team of health care and family services professionals, including physicians, nurse practitioners, dentists, a nutritionist, behavioral health specialists, registered nurses (including some certified in management of chronic illnesses), parent educators, home visitors, social workers, and child care providers.

These team members work together to provide you with well-coordinated services to meet many of your needs.
